A very touching event happened about half past five o'clock Edith, our Jewess, has been somewhat depressed in spirits for more than a week; a thing unusual with her, for she is perpetual motion both physically and mentally. She is a girl of unusual mental ability and if placed on the side of right would be a power. But we are sorry to say wherever she could help along evil, that she delighted to do.

I have been on the point of dismissing her several times, wrote Mr. Crew to remove her, also her family and arrangements were made to send her to Providence R.I. to a sister. When the time came for her to go, there seemed to be signs of improvement and I refused to give her up.

During the seven months she has been with us, it has been a continual warfare; Her conduct through the house and sewing-room causing such disastrous influence upon the others, making me feel again and again that I must send her away or lose most of the girls; but in much fear and trembling, through the solicitations of friends interested in her, I retained her, watching every evidence of improvement, no matter how slight,

1898

with joy.

Many prayers have been offered for her, and to-day we have witnessed the result.

For several days she has seemed more depressed and unhappy than ever. We would find her crying bitterly at times and especially after the services of this morning and afternoon.

After Mr. Wing left I called her to my room, and tried to see what was the matter and if I could help her.

I was scarcely prepared for what followed. I found she was feeling deeply her sinful condition and was in anguish of spirit. With one outbreak she cried "Oh Mrs. Freeberger I want to be good, but it seems every sin I ever committed is before me, how can God forgive me, I have sinned so greatly?"

I talked with her as best I could from her stand point as a Jewess, and was much surprised at her frank avowal of belief in Christ as her promised Messiah.

The result was after a long talk and prayers and Edith praying for herself, the blessing of peace came, and she was a happy girl.

Ida Wood called. Sickness and death in the family has kept her away.

Saturday July 2nd

Miss Whipple conducted the afternoon meeting.

In the afternoon Rev. Mr Tomlinson conducted the service.

Monday July 4th

The morning was bright and clear but very warm. The girls commenced decorating the trees and house with bunting and Chinese Lanterns, then made preparation for dinner in the garden. We had the platform erected back of the house for the evening's entertainment, which they have been working hard over for several weeks. All were looking forward to a great deal of enjoyment which was somewhat spoiled by the heavy storm in the afternoon.

The entertainment was held in the house, and passed off pleasantly, the girls did themselves credit, both in the rendering of their pieces and with the perseverance in which they worked. The day closed with their usual treat of Ice Cream and cake.

Mr DuBois, Miss Lafferty and Mrs. Gothold were present in the evening.

Tuesday July 5th

Nellie Farrel from Elmira N. Y. called we were very glad to see her. Ever since she left us she has been in the same family, through there

1898

kindness she has been enabled to study Stenography and Type writing, has graduated and is now employed in the Rail Road Office where the gentleman in whose family she has lived is engaged. This speaks well for Nellie, She left us Aug. 1892.

I called at the home of Nellie Brown, and found her parents in much distress about her. She has left home and gone to the boarding house Lettie Kirkpatrick is in, and we fear evil consequences will follow.

Wednesday July 6th

This afternoon I called to see Nellie Brown and Lettie Kirkpatrick, both girls were at home.

The house they are in seems to be a respectable boarding house, but both girls are behind in board. Lettie owes nine weeks and Nellie two. I cannot understand how they can remain where they are.

Lettie had been to see about a position that day and was hopeful of getting it.

I remained with them two hours talking and reasoning with Nellie to go home to her parents, and in trying to find out what kind of a life Lettie was living. I feel doubtful of her although she positively asserted she was not doing wrong.

Nellie told me she was to be married on Friday evening next, to a young man boarding in the house. I could not prevail on her to go home, and left them feeling I had not accomplished much.

They both seemed affected, but would not acknowledge to any wrong. I wanted to give them the benefit of the doubt, so left them, both promising to come see me soon.

In the evening I again went down to see Nellie's Father, to entreat of

1898

him to make some inquiries concerning the the man she said she was to marry, and to find out positively what kind of a house they were in, He promised to do so and report to me tomorrow evening. He is very much tried with Nellie but is willing if she will humble herself and acknowledge her wrong to allow her home again.

When I got home in the evening Mrs. Myers who took Lizzie Whoglemuth on Dec. 30th was here to ask us to take Lizzie back, She is doing badly and beyond her control.

I advised her going to Mr Drew as Lizzie (or Rosa as we called her) is a subject of that Society, and have him arrest her and send her back to us.

When Rosa went out I felt it would be better for her if she remained another year. She was a poor miserable neglected child when she came, could neither read or write. She improved so much, you would scarcely know her for the same girl of a year before. She did well until about two months ago when she became intimate with Sophie Smith, and together they have become pretty wild. Rosa is no relation to Mrs. Myers, although she calls her Aunt Laura, she is a good friend to the girl, and was willing to do all she could to help her, it is a great pity the girl is missing her opportunity.

Thursday July 7th

Mr Brown called this evening, he had located the man in his business, and then went to the boarding house to see him.

The man acknowledged that he and Nellie were talking of marrying, he was very respectful to Mr Brown and told him he would call at his home and talk with him. Nellie still refuses to go home.

One of the Deaconess's of the M. E. Church called to see if we would receive a girl that had come under their notice. I told her to bring the girl here and I would talk with her. Friday July 29 th

Agnes Smith and Grace Hamilton both girls mentally deficient, have been giving us for two months a great deal of trouble. They were brought here by Dr. Abbey and Mrs. W. W. Frazier, Grace Hamilton is Mrs. Frazier special charge. After they were here a few days I told both ladies, these girls were not bright and I was afraid we could not keep them. And please not bring any more like them, we were glad to do all we could to help all that needed our help, but our Home was not for the feeble-minded. They promised to remove them if I had to notify them to do so.

I have from time to time spoken to these ladies of the conduct of the girls, and would try to keep them, that we might see if any thing could be made out of them.

I finally yesterday wrote Dr Abbey to remove Agnes. And received the enclosed reply.

This morning I went to the Dr's office. Women's Directory 206 So. 7th St. And told her something must be done at once, as Agnes was a Roman Catholic, if she would write me a note to the Mother Superior of the "House of Good Shepherd" I would send it out and see if they would

1898

receive Agnes. I did so, and they agreed to receive her tomorrow.

I wrote last week to Mrs. Fraziei to remove Grace. She is probably out of town as I have not received an answer.

Both of these girls have disturbed the discipline of the house by their insolence and disobedience. Agnes would not mind in any way, would run about the house screaming and destroying things, and when I would send for her would hide, and refuse to come. Today in the School-room she did the same and Miss James had to bring her down, (please read Miss James's note) Agnes ran out into the garden and laid the balance of the afternoon under the bench in the Summer House.

Grace's conduct has been of the same order, together with a viciousness that has caused fright and trouble among the girls.

You may imagine how difficult it has been to keep the family in order this extreme hot weather under such circumstances.

Grace has bitten and struck the girls, until they turned on her, and it is a wonder serious trouble has not come out of it.

Saturday July 30 th

I sent Agnes with an Officer to the "House of Good Shepherd", She has just returned to tell me, that they received her, and she is safe.

I also received the enclosed letter from Mrs. W. W. Frazier.

As she is a Manager of the "Midnight Mission" I will write her to please send me an order to have Grace admitted there.

1898

Agnes going away may quit Grace. She was more subdued yesterday.

She is now married and living in Roxborough, and seems quite settled.

Received a telegram early, that three girls were on the way from Wilkesbarre and would arrive in the morning. At nine o'clock they came - Lizzie McGuire - Marion and Sophia Thomas, the latter twin sisters.

It was with some difficulty the twins could be prevailed upon to come in. While Mrs. Price and myself were talking about them, Sophie ran out the front door. Mrs. Price and the lady with her were in much distress and immediately started for the City Hall and messages were sent to the different Station Houses.

At 12 o'clock a note was sent me from the Supt. of Police at City Hall, the girl was found, and to send immediately for her. I sent a note by Mr James telling them to send her in the Patrol Wagon. Since the last entry in my journal I have been ill and unable to keep up a daily record, so will sum up what has occurred the best I can.

Nine applications were made to receive girls, by parents and guardians, five of these we received. Three ~~of the~~ who were received were discharged for disorderly conduct. Blanche Lee so thoroughly doped restraint, and was such a demoralizing influence upon the others I thought it best to return her to her people, and did so on April 13 th.

Sophie and Marion Thomas twins, were alike incorrigible and I had them returned to their parents April 26 th.

1900

These girls made it very hard for Miss Black during my illness, together with a very incompetent person in charge of the sewing-room that for a time it seemed disorder must reign. But it is now quiet and we are moving along as usual.

Miss Harrison an English woman has charge of the sewing-room and is giving good service, and I think in a little while will teach and manage nicely.

Our Sunday services were supplied as usual, and also the Saturday afternoons.

On the 26 th inst. Dr Schaffer very kindly gave the girls a Stereopticon entertainment, Mr Truscott as he always does used the Lantern. Mr DuBois was present. It was a pleasant evening to all, and we are glad when the girls can have them. It helps to relieve the monotony of their lives.

It being a very warm evening, I allowed them up until 10 o'clock. No matter how well they behave, there is always some discontented and

unruly ones, and this good time did not prove an exception.

About 9.30 we found one girl Rosalie Rieben had escaped over into the Blind Asylum grounds, another Annetta Barr was hanging to the top of the wall, and two others, Fannie McFarland and Helen Lynch, were making an attempt to follow. Miss Black immediately ran to the front door, for once a Police Officer was within reach, he was standing opposite the house, and when Miss Black spoke to him, he started for the Asylum grounds and found Rosie trying to break open the Lodge door on Race St. The other three we had in the house. I called at the "Jefferson Maternity Hospital" to see Jennie Brownwell. She is well, and very impatient to get away and go to work. She is tired of being penned up she says. She seemed to speak with more heart and sympathy for the coming babe, yet very determined to put it out to board. She tells me she hears from the people she lived with in Maryland, and after her trouble is over is to go to a friend several miles from where she was raised. I gathered from what she said to visit only. I thought her manner more subdued and not quite so reckless. She inquired after all here and sent a kind word to all, and expressed herself as liking it far better here.

I told her to send me word when she was sick, and when I could see her again.

The family are well with the exception of the above case. We are noting with pleasure the improvement in some of the girls that have been here for six months, and even some in less time. The last girls in, are the worst behaved and the hardest to control, and are to the others an annoyance and disgust. This is marked, that there are less of the older girls going over to that influence, than we have had formerly. We are taking courage out of this, praying and trusting it may so continue, and the evil influence be checked, as it is the necessity for classifying grows stronger than less, and we hope the time will soon come for it to be done.

1902

Friday Feb. 14 th

Mary Jones three offering her Mother took her home. Mary has been rather a difficult girl to manage during that year, but we are trusting the seed sown will not be lost. I wrote Mrs Duffy last evening that Evelyn had not returned. This morning Mr Lee called said she was left in his charge in the Court-room by Miss Jones, and at one o'clock they left the Court room, he said he did not know she belonged here. He had gone to Camden N. J. to see her Mother and found at three o'clock she had gone home and staid until June, when her Mother told her she must return here. She tells it she went skating with a man and he brought her to the door. She is not a girl of very sound sense and is a butt for the whole family. Lizzie Whitman was taken home by her Aunt after a years stay here. We do not feel very sanguine of Lizzie's future.

Wednesday March 19 th

Since the last entry in my journal, I have been ill and unable to record the workings of the days as they came and went.

Every department has gone on as usual, Mrs. Trinkle the sister of Mrs. Pew is still with us, and has well filled her sisters place. She has endeared herself to the girls, and has come in close touch with them, patient and kind and always ready with an encouraging word. For four months she has never failed us but faithfully did what fell to her lot as Mrs. Pew's representative, we certainly owe her our heartfelt thanks for her faithful services. We are expecting Mrs. Pew back tomorrow and Mrs. Trinkle will leave us on Saturday.

On Feb. 21 st Evelyn Bacon was taken to the "House of Good Shepherd" by her father.

March 6 th Marie Ashman was taken home by her mother. We have had her for one year. She has been a very hard girl to manage, constantly disobedient and impudent we have felt but little hope for her future.

I enclose a letter I received this morning, for you to read, which is quite encouraging that she may yet do well.

March 10 th Margaret Ricketts left with her brother a lad of nineteen

1902

years, just one one year ago he brought her here. Margaret is a capable girl and older than her years, which number 17 next September. She might make a good woman if she will, but she has no one to guide her or keep her under restraint with her trails of lying and deceiving and a bent to immorality we fear the worst. She lived in this neighborhood, and worked in a Mill before she was brought to us. You can well imagine with the direction her mind took the many trials we had with her. Flirting out of the windows, with those she knew, and also with those she did not know, sending notes over the walls and under the gate, receiving them in return, together with cigarettes, chewing gum, candy &c and leading other girls with her.

She has a tender heart and I am praying and hoping the poor Motherless and homeless girl will not forget the Christian home and training she has had the past year, but it will follow her, and be the means of saving her.

March 17th Irene Hipple whose time was not up before the 30th inst. was called for by her father who lives in Pottsville.

Her mother is very ill, we let her go for her father said aside from the extreme illness of the Mother, her sister who cared for the family was taken suddenly ill, and there was no one to take for them now. This is another girl we feel but little hope for. We can but pray the dear Lord will not let the seed that has been sown, be lost.

A Mr Kurtz, whose daughter was here in 1884 called to see if we would admit a daughter of a friend of his, the family are moving from Allentown to Phila. The girl is just past thirteen years of age. I told him to send the father to see me, and I could better decide if she was a subject for our Home.

At the same time Amelia Kurtz was here. Florence Jamison was also. These two became very much attached to each other. Florence we sent back to Ireland to her adopted parents, the Children's Aid Society and ours joining in the expense. I took Florence to New York Oct. 16-1884 and saw her off on the Steamer, State of Alabama.

Today I learn she had a very unhappy home in Ireland, and Amelia entreated her father to send for Florence which he did and adopted her into his own family, where she staid until she married, About the same time Amelia married but very unhappily. Five years ago Amelia was burned to death, leaving two little children.
Florence lives in Phila. and regularly visits Mr Kurtz's home.

After she arrived in Ireland she

This is the girl that made such progress in the School-room, and in other ways also. The family are doing well, and looking forward with much interest to Christmas Day.

Wednesday Dec. 24 th

This has been somewhat of a gala day to our young folks, each one is hoping to be the favored one to stay up and decorate the room. and vieing with each other in being the noisiest and happiest.

The girls have been for some time making paper flowers, to adorn the Bay window instead of the usual Christmas tinsel. A friend from Bridgeton N.J. came to our help and made for us about two hundred roses, sending them to-day, We hope to give the room a festal look, and help to make the family happy.

Thursday Dec. 25 th

A white Christmas day. Long before it was time to go down stairs, the girls were ready. They were as quiet as one could expect when let into the room. Many of the girls received presents from home, and it was a pretty sight to see the greens and the flowers in the window, and the tables set with their gifts. Every one seemed happy and joyous. A dinner of Roast Turkey &c with mince pie was also a factor to the enjoyment of the day. Mr DuBois and Dr. Walson gave us a social call, at the time the girls were about taking their places at the table, Mr DuBois asked a blessing, and it was not long before the young folks were as busy as bees - Among the gifts they received

1902

was a gold breastpin from the Managers of our Home, these proved to be a great surprise as they were expecting their gift might be a silver thimble as the family of last year received.

The day ended in harmony and all went to bed expressing thanks for the good times given them.

Friday Dec. 26th

O the tired and half sick family we have today. No one wants to stir, work is a failure, and about all we can do ~~to keep~~ to keep a good humored household is to laugh them out of their troubles.
A good nights rest will heal them all.

Irma called with a young girl — Her appearance and knowledge of the girls that are out, makes us fear that all is not right with Irma.

Mamie came to see us - She is a real comfort.

Wednesday Dec. 31st

Nothing worth journalizing during the day. The going out of the old year has not been mentioned very much by the family. The year has had its encouragements and discouragements in the work, and while we see a change in the character of the inmates from those of past years, we believe it mainly owing to the recklessness and lawlessness of the times, and the young are made the sufferers by it.

It makes the work more difficult, and good results may seem less abiding, but the promise of the Father is sure. "My word shall not return unto me void".

We but sow the seed leaving the reaping with the Master, counting not discouragements but each in his field proving faithful to his trust.

A woman thirty four years of age, with a daughter fourteen years old, applied for a shelter. She is so wretched over her sin and wants to get away from the man, but he will not let her go or go himself. She has a husband and he has a wife living so they cannot marry.

I did not know what to do with her, or for her. An institution of this kind was not the place for her daughter, while I told her there was several of them where she could be admitted, it would be an injustice to her child to take her there.

She finally concluded to call on me again and see if I had found a home for her.

She is working in one of the department stores and had made up her mind not to return to her home, when she left in the morning.

1904

Sunday Jan. 1st

1905 Finding Cecelia Goldberg perfectly unmanagable and more than half witted, I sent to Miss Gray to remove her. Mr Almindinger a detective at City Hall was called up by Mr McCardle one of the Managers of the "Door of Hope" and consented to come here and take her away, which he did.

I was called upon to go see a woman who was an inmate of this Home a number of times, one that the Home has always been interested in. She was thought to be dying and expressed a desire to see me. I went to see her, and found her very low, and happy in the thought that she was going Home to be with her Saviour.

When Kate Hammil was fourteen years of age she was admitted in this Home by Miss Mac Donald. At that time she was addicted to drinking, an appetite she inherited from her mother, she was here quite a long time.

When she was twenty two years of age I admitted her, and on seven different times she came begging to be saved from herself. We all liked Kate for when sober she was a good woman.

I have never lost knowledge of her, but it is some six years since I have seen her.

God has raised up many friends for her in her extremity, she never seemed friendless in her lowest days, and prayers have been answered in her behalf. She was very glad to see me, to all appearances she seems to be nearing home. One of her questions to me was "how is Mr Robinson, I shall never forget him."

Florence Baker has had another attack of violent temper, these attacks are becoming more and more frequent and she has threatened to injure others. She is now locked in her room. for nine months we have striven to tide this girl over. She came here last June of her own accord, a miserable delicate looking girl, without home or friends, entirely disowned by her family, it looks very much as though her brain was affected, and it is evident we cannot keep her any longer, her last threat has been to throw a bucket at Mrs. Dew's head, and a repetition of her old threats to commit suicide. She has been making quite a noise in her room and calling out vile names whenever she hears a foot step in the hall. We have had two days of this and I am at a loss what to do with her, for these attacks are so frequent and are demoralizing to the family.

The parents were determined not to take her home but to place her in another Institution from here. Three months ago Rebecca was converted and to the present time has lived the new born change in her.
It was a happy occasion when I told the mother Rebecca was born again. Several times the Mother had been here, and finally the father came. He had not seen Rebecca for nearly three years. The parents at last consented to take their daughter into the home circle again, so on Thursday last we took her home and a happy home coming it was.

1905 I will enclose a letter I received from Mrs. Lownes which will speak for itself.

On our way out in the Trolley a young woman stepped over to me and called me by name. I asked who it was for while the face was familiar I could not recall the name. It was Emma Helling's sister. She told me Emma was doing very badly and had been for some time. This sister married two years ago, and has had Emma with her, several times she would leave her, and come back, and at present all of Emma's clothes are at her house. Emma she thinks is some where in the City but she does not know where.

I have a very painful and sad record to make, our Miss Helen Radford (our night watchwoman) died very suddenly in less than two hours after she left here this morning. She was not looking very well and when she came to my room just as she was leaving, I asked her if she was ill, she looked so pale, no she said, only feel a little bad from some stomach trouble, this was 7,30 and before ten o'clock she was dead. She reached home safely 42nd and Fairmount Ave. went to bed at once and not long after the nurse heard a fall, Miss Radford had gotten out of bed and fell, she was dead when the nurse reached her. She will be buried on ~~Wednesday~~ Thursday morning from her sisters residence 62 North 60th St.

Miss Radford has endeared herself to us all, her kindly quiet ways made all love her. We shall miss her very much.

The dinner tables were set out under the trees, and looked very pretty, and the pic-nic dinner was enjoyed by all.

At tea time they again had their meal in the garden, and in the evening a little entertainment was given by the girls, using the porch for a platform, as it grew later we found it was getting too cool in the garden for the girls to eat their treat of ice-cream and cake so adjourned to the sewing room, and finished the day and evening there.

DEATH CALLED GIRL ON EVE OF NEW LIFE

Rescued From White Slavery, She Looked Joyously Toward the Future.

HEART DISEASE VICTIM

Sold into white slavery by the agents of a vice syndicate several months ago, and rescued by the police during a raid, Agnes White died on Monday, as she stood on the threshold of a new life.

Eight months in the Magdalen Home, at Twenty-first and Race streets, had awakened the better nature within her.

"I abhor the old life," she had often said to Mrs. Elizabeth T. Freeberger, superintendent of the institution, as together they discussed the prospects that awaited the girl when she should once again go out into the world her own mistress.

She was to leave the home within a few weeks, but heart trouble seized her on Monday afternoon, and death resulted after but a few minutes' illness. Her body was removed yesterday to her home, at Sixteenth and Melon streets.

The girl was lured to a house at Ninth and Buttonwood streets last January, and held captive by two men, whom she accused of taking her clothing from her in order that she might not escape. She was taken when the police raided the house.

Jessie Bair and Abe Stein were sentenced by Judge Barratt to the County Prison for their connection with the case.

"All Delaware knows the relations that have existed between Allee and myself. There isn't a man or a woman, and hardly a child, in the State that doesn't know how poor he was when I first took him up, snatching him from the danger that impended because of the race the Sheriff and the constable were making to land him.

"The State knows, too, that to-day, when J. Frank Allee goes out driving behind the fastest horse in Delaware, it is behind a horse that I gave him; that when he votes his stock in the First National Bank of Dover he votes stock that I made him a present of, and that when he walks into his own home and hangs up his hat he hangs it up on a silver inlaid hall piece that I presented to him.

"The course of politics in Delaware during the last fifteen years has taught the State to despise the traitor, and when, of its own knowledge, it is able to measure the extent of Allee's treachery, its judgment will be swift and certain."

The gasman spoke without trace of bitterness in his tones. He was neither put out nor alarmed by Allee's volte. In fact, he seemed to take pleasurable satisfaction
