Dearest Lovely Sister,

Another nice letter from you came this a.m. Thank you for Aunt A's address. She is a very hard person to write to isn't she? Everything goes along pretty nicely now here. I have been pretty busy with all sorts of things. I didn't get off last Sunday and so am looking forward to this weekend. M & I are going to [Belair?] Sat night & hope to arrive with the Peppers if they are still at home. Mother came down last Sunday and retailed me a lot of interesting home news freshly turned out by Molly Wilcox's fertile brain Dr. B. is just back from a trip to Cambridge where he did 9 ops. Mrs. B. writes that she is delighted with North East. I think it was very nice of Mother to lend it to her & I'm delighted myself that we are going to have it as soon as we arrive & not going to move into an

[Page 2]

other cottage first. I hear that Olga is going to cross on the St. Paul with [Pagey?] Is that so?

Ask Uncle H. if he can find the ring nebula of Andromeda in the telescope. We used to search for that most diligently at Dark Harbor but never could see it.

I have been reading a little of Trevelyan the miracles in places he is almost funny finding objections where there are none to have the pleasure of discussing them.

There is no disagreement between  
[H.A.K & T.S.C?] I think they had seen one  
another very lately & so were not excited  
at meeting again probably.

With love to all the family & your own self

Your affectionate Brother.

R.
