

Spring (1920)

Carvel Hall

Annapolis

Maryland

This is another postscript. I will order the woven wire springs for my couch in my dear little sitting room when I know where to have it delivered.

Could you ask Mr Frank to go to Mother's + look at her "day bed"? He could see how the wooden part is made - + perhaps ~~I~~ I

he could put the legs + the railing etc. on in the sitting room: making all the parts at his work place - I doubt if it could be gotten into the room if it is all put together first.

When I hear from you I'll order the springs.

B. + H. won't go to N.E.H. this summer - what do you think about ~~illegible~~? Please let me know. I could

be just as happy doing anything, it doesn't matter what. Summer with my daughter is lovely anywhere. If we do decide not to go please look in drawer of little table by my bed, at the back of the drawer. Lease is there - I can't remember Mrs. Clark's first name - I have no "leading" about what we'd like best - have you? But I do think it makes a lot of difference if members of the boys ~~illegible~~ will be at N.E.M.

Mother
