Begun Tues.

Darling daughter,

Sunday was lovely. I was so glad to see your dear face- and bringing the [illegible] was a good thought: they are always great fun & very 'tresting I think-

We "confer" by the hour & hour from morn till late night, in corridor of state house, in restaurant, in middle of street, in hotel lobby- but we don't get anywhere- no more votes in sight as yet- We are doing all poss. in

Wed. morn.

I talked w. you last night on tel. so will not add much because there's too much to write. We have found the best "lead" yet- one that is likely to bring success. We've got a man interested who can do more for us than anyone- & we've got all the leaders who are with us coming to us all the time with every plan & to ask our opinion- that's A.P. of course- she always deeply impresses these politicians- & it's not surprising, for she knows more about the

politics of any situation than the men who are old at the game do themselves. We expect to pull through all right. The outlook is better this morn. because we have brought the leaders of 2 opposing factions together & obtained from one (the Governor) a necessary concession. It's all frightfully secret, & only A.P. & I & the other 2 (gov. & the other man) know any thing about it. Our teleph. conversations are listened to, wires tapped & all that- It's quite amusing.

I've seen the pres. of the "other" suffragists 3 times this a.m., & we are co. operating beautifully- Hearing to-morrow, & I'm waiting now for a Washington call to ask Miss Pollitzer to try & secure 2 U.S. Senators for us- McKellar of Tennessee (Dem.) who was so fine in Maryland- & Senator Spencer of Missouri (Rep.) who is a good speaker from a party standpoint- The whole thing has to be worked through party pressure-

Good bye beloved, and lots of love to you on my Pa's birthday-

Your Mother-

Wed. mid-day
