

Visit of Jake Addams

Box 235, Lyme

Connecticut

June 17

Darling daughter,

Sophie + I went to Hadlyme for our distinguished guests this morn. They came, lunched, chatted went to see Miss Ludington (Dr H. + Miss Addams did, me motoring them) + then I drove 3 of them home. Miss Landsbury remaining behind having decided to spend night. I just missed the boat, so staid for tea + missed another

then to see Agnes + hear about her family who wired this morn. Delay of 24 hrs on acct. of accident at Pbggh - train accident - but they are all right.

Miss Addams leaves Hadlyme tomor. + sails on Sat. Miss Balel was also here to lunch - not going w. Miss A. to Ireland - family won't let her - wh. Dr Alice thinks quite [illegible] - but I spose she doesn't want to go so puts it on her convenient sisters. Ever so much love,

Supper is served

O factful and clever one,

I am sorry not to have Mary Hurley, but so pleased that Annie will come. The latter part of your letter quite did away with the disappointment of the beginning.

I think Mrs Houston can find me a cook if Annie doesn't get one. Of course I'd like her to if poss. so that there

may be no unpleasant surprises for anybody - unless me!

I brkfsted w. Millicent + Horace + the most adorable baby - 7 wks - + perfect. They wanted me to stay for lunch, dinner everything - but Horace had to leave for his pre-medical course and I to meet M. Corlies - had a nice little visit + then to Dr G. who was most conversational - talked so much I was 1 hr. being looked at, and only some [tricks?] to take in corset + re-

adjust brace. The nurse puts on both brace + corset so comfortably.

I can't get them at the same spot somehow.

I asked about the B's and Dr G. said he would keep them about two weeks longer. I shan't write that to E. tho', for I think its best not to drop news between doctor + patient in this case.

Mr Brooks says he will have my car finished today - prob. by lunch time - Isn't that good news?

I've asked Miss H. + Miss L.

for lunch tomor. on Mrs Müller's chicken, and then I'll also ask Mr + Mrs Marten + Mr [Houghton?] who are in Miss Morrison's house. Mrs Geo. Griswold says she doesn't know anybody - is just going to have a baby - that they are young + poor + plucking - Mr [Houghton?] she thinks is putting up the cast for the venture: evidently has more than the Martins - So think I'll call this aft. + look them over if they are in - + then until then if I don't feel discouraged. Blue petunia lovely - the G's are going to be splendid [illegible] w. the

Garden. They came to see me yest. just before I got back from Boston, + I went at once to them + had a pleasant look. Took with her an important looking document sent by Dep't of Motor Vehicles - such a lot to fill out - diagram to draw - + the story to write + swear to it all.

Geo. G. is Justice of the Peace, so he filled out most of it at my dictation + signs his name + I signed mine.

Poor Chas. my heart aches for him. I wish I didn't have to go to denounce his next week.

Mr Griswold is going with me - offered to, wasn't it nice of him?

Best love my precious - [Saluka?] has to go home, so will leave next week after I get back from Pbgh - on Fri. or Sat. I think - then she joins William. She says he had intended to go home + attend to whatever it is, but now that he is to go to Chicago she must be the one. Artie has a place in N.Y., leaves on the 21st. I should be having walks dinners + reception there last days if it weren't for the Prison Convention. Much love my dear Mrs Lewis

Mother.
